CLIL and OUTDOOR WORKSHEET – TURKEY

9th Graders Outdoor Sports / Activities/ Games Worksheet

HIDE AND SEEK

Hide'n Seek is a game that could keep kids entertained for a few hours and it is a simple and a fun game to play. As you probably know, the concept of hide and seek is simple:

1-Hiders: One or several players, have to be out of sight, trying to not to be found by seeker.

2-Seeker: One player has to find the player or players that are hiding in an area.

Rules of hide and seek:

There needs to be at least two players in hide and seek. The basic rules are one player becomes "it", the seeker, and this player has to find the other player(s) hiding. The seeker covers their eyes, sometimes turned around against a wall or a tree. The seeker counts to an agreed number, which is usually 10. However, longer counts, such as up to 30, may be needed for larger areas. The seeker counting must be loud enough for the people hiding to hear. At this point, the hiders are scrambling to find a good enough hiding spot. Once the seeker is finished counting, he or she must say "Ready or not, here I come!" loud enough, or something similar, to let the hiders know they must stop moving around and stay hidden in their spot. Hiders must pick a spot and stay there until they are found. Staying quiet is the challenging part, although there's always a thrill when the seeker is close by, yet they can't find the player hiding. The seeker can turn into a real scavenger, looking for clues to find the hiders. Once the seeker finds hiders, the last player that is found, wins. The first player found becomes the seeker in the next game.

Exercise 2: Order the steps of "Hide and Seek" and fill the blanks.

- Players hide in the game area.
- After the counting is over seeker tries to find other players.
- Players and seeker are selected.
- Seeker closes their eyes and starts counting.
- First player that is found becomes new seeker.
