

CLIL and Cross Curricular Relations – Geography Pictionary Worksheet

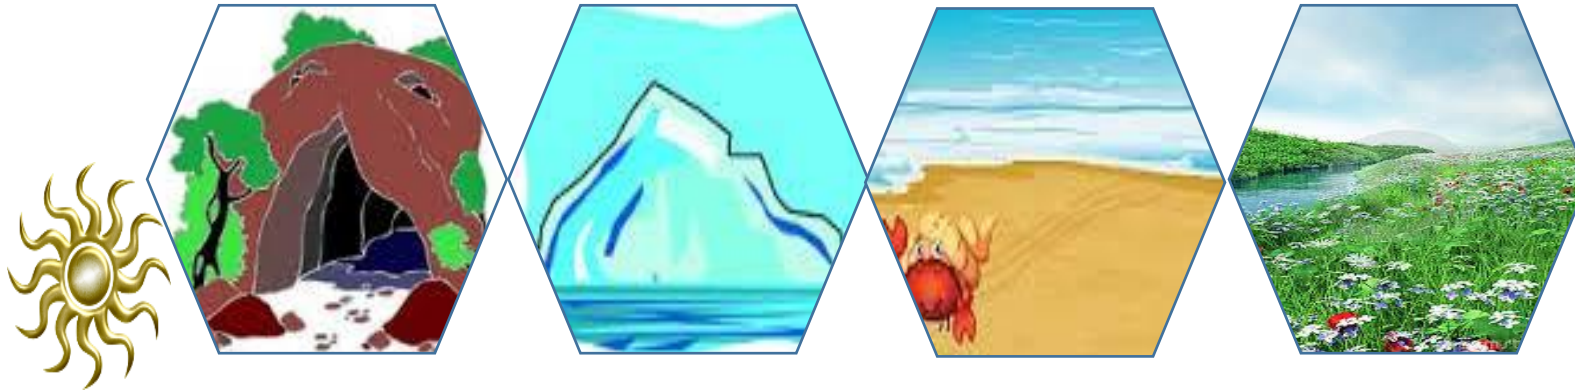

Please write the names of these landforms below each of these photos :

Please write the names of these landforms below each of these photos :

Please write the names of these landforms below each of these photos :

Read the Geography terms and their definitions and then name one or two of them from your country :

Eg. Mountain : Mount Erciyes and Mount Uludağ in Turkey.

Hill : An area of land which is higher than the surrounding land.

Mountain : A raised part of the Earth's surface, much larger than a hill.

Cliff: a high area of rock with a very steep side, often on a coast.

Rock : the dry solid part of the Earth's surface, stone.

Wave: a line of higher water that moves across the surface of the sea or lake.

River: a long, natural area of water that flows across the land and into a sea or another river.

Waterfall : a stream of water that flows from a high place, often to a pool below.

Lake: a large area of water that has land all around it.

Desert: a large, hot, dry area of land with very few plants.

Island : an area of land that has water around it.

Plain : a large area of flat land

Savannah : a large, flat area of land covered with grass, usually with few trees, especially in Africa.

Volcano: a mountain with a large hole at the top which sometimes explodes and produces hot, melted rock and smoke.

Canyon: a deep valley with very steep sides

Valley: an area of low land between hills or mountains.

Jungle: an area of land, usually in tropical countries, where trees and plants grow close together.

Cave: a large hole in the side of a cliff, straight high rock next to the sea.

Glacier: a large mass of ice that moves very slowly, usually down a slope or valley. the

Shore: the area of land along the edge of the sea or a lake.

Meadow: a field of grass, often with flowers.
