

# CLIL and Geography

## THE BRANCHES OF GEOGRAPHY

### PHYSICAL

-Focus on Earth's natural environment ( landforms, plants, animals...)

-Studies the processes that shape the physical environment

**Interaction  
between  
people and  
the  
environment**

### HUMAN

-Study of the distribution and characteristics of the world's people

-Examines how people make and trade things that they need to survive

-Study where people live and work
